WORDPRESS LIVE PROJECTS

JOIN THE CLAIM

Developed a WordPress website to connect individuals with law firms for group action claims, providing an easy-to-use platform for eligibility checks and compensation access. Focused on optimizing user experience and site performance.

ELDERLYCARELAWFIRM

Developed a WordPress website to connect individuals with law firms for group action claims, providing an easy-to-use platform for eligibility checks and compensation access. Focused on optimizing user experience and site performance.

CORE PHP PROJECTS

CRUD-PHP

This application connects to a MySQL database and provides a simple, user-friendly interface for managing data. It allows users to add, view, update, and delete records efficiently in a structured manner.

Employee Task Management - PHP

simple and efficient web application that allows admins to assign tasks, track progress, and manage employee roles and deadlines effectively.

CHAT APPLICATION - PHP

This chat application allows instant messaging and shows users' online/offline status in real time. The app updates messages and status instantly without refreshing and offers a user-friendly interface for smooth communication.

CHAT ROOM - PHP

Chatroom where multiple users can join and chat together in one space. It lets people talk to each other in real time, making it perfect for group chats, team discussions, or just casual conversations.

ONLINE NOTES SHARING - PHP

Online notes-sharing app that allows users to upload notes, download notes, and view notes by others. This platform makes it easy for users to share their study materials and access notes for their learning.

ROOM BOOKING WEB - MERN

Provides a simple and convenient interface to view available rooms, reserve them, and manage bookings.

PIZZA BOOKING WEB - MERN

Allows users to easily order and customize their pizzas. The app provides a simple and convenient interface where users can select pizza sizes, choose toppings, and place orders for delivery or pickup.
